

# Interested in learning more about the LUMIPULSE® G1200 and its menu offerings?

## Try the LUMIPULSE G1200 in your own lab!

The Fujirebio Lumipulse Evaluation Program is an opportunity to evaluate the features, benefits, and performance of the LUMIPULSE G System and assess its ability to solve the needs of your laboratory.

Let us demonstrate how our high quality assays and instrumentation can help improve your laboratory output.

- *Are there assays you would like to add to your current testing menu?*
- *Would you like to quantify workflow improvements or cost savings for your laboratory?*

Help us pioneer our latest technology and establish our footprint within the U.S. by using your expertise to produce high quality publishable results.

- *Are there assay results in specific patient populations you would like to study further?*
- *Achieve peer recognition by authoring an abstract based on the results of your evaluation.*

## LUMIPULSE® G1200

Speak with a Fujirebio representative to help plan your evaluation today!

# Lumipulse® Evaluation Program Process

## 1. Site Survey

Fujirebio's Field Service Engineer will visit your site to ensure appropriate space and electrical requirements are available for the instrument installation.

## 2. Protocol Generation

Fujirebio will draft a study protocol to review with you and ensure it aligns with your expectations.

## 3. Evaluation Agreement

Fujirebio will draft an evaluation agreement outlining roles and responsibilities. This agreement includes costs Fujirebio will cover and materials Fujirebio will provide free of charge in order to perform the evaluation.

## 4. Installation/Training

Once the site agreement and protocol are agreed to, Fujirebio will schedule installation and training on the LUMIPULSE G1200, as well as provide all Lumipulse assays included in the evaluation free of charge.

## 5. Testing

While testing, Fujirebio will provide you all necessary support and service free of charge.

## 6. Analysis

Fujirebio will provide any additional statistical analysis to complete the evaluation.

## 7. Closure

Upon completion of the evaluation, depending on the study design, the results may be publishable.
